N. museum Kindia

For the record of these, see the KT sequence (numbers introduced by EM), which includes figures on examples in N. museum, records of N. mus. examples photographed, and sometimes comments on EM examples, description, etc.

Of the duplicates of this KT sequence, the 2nd flimsy is to be bound for the National Museum, the 1st flimsy (originals) is now kept in file of KNIDIAN, and the card copy, meanwhile, in one of our small shelf-boxes on wheels.

Plot of EM LK

This has been done systematically, as needed through LK EM 658, with a few higher numbers also done, ~~taken~~ for various reasons. See duplicates for record.

Note a great many are on Roll 375, taken 22.XI.55, somewhat ϕ dov, evidently has not looked. For publication will have to be redone.

15.III.61 I note this still through LK EM ~~672~~ 676, there seems to be nothing coming for a plot. Nos. 677 - 690 have still not had their duplicates separated, so worthwhile to plot. The few of which plots seem to be needed, are. to these readings:
