of Νικεσαγόρας

What ME is?

Now, this is ΜΣ 609

Pungo: if they have it, see ident. ?)

letter Thomas gives

14.VI 79 Rhodes

Ἀγγελική Γιαννηκουρή

from Kos

with 2 children

husband is [illegible]

Indications in the upper right corners classify handle and/or stamp, distinguishing 1) place of origin when known - T(hasos), R)hodes), K(nidos), etc.; 2) type of stamped vessel if not an amphora; 3) language if not Greek; 4) shape of stamp if not a plain (unframed) rectangle; retrograde inscription (indicated by an arrow). Inventory numbers and any other documentation go to the left, any descriptive comment to the right, dimensions unless otherwise specified being width by thickness of handle where stamped. Numbers in the middle are negative numbers.

ΜΣ 1 - 160

ΜΣ in Rhodes - 1952 (from handles on trays from 1951 excavations. (Pythagoras 85.

OVER

26. VI. 84

ME nos were given to stamped handles from Weinberg - Stambolides dig.

They were:

ME 865 – 905

So ME 905 is now the last ME number given

13. I. 86

And note that photosphere through ME 905 have been sent to Mr. Papachristodoulou, see letters to him, in last of 26. VI. 84; like this note, see above.

(see also OVER)

2.03

Indications in the upper right corners olassify handle and/or stamp, distinguishing 1) place of origin when known - T(hasos), R)hodes), K(nidos), etc.; 2) type of stamped vessel if not an amphora; 3) language if not Greek; 4) shape of stamp if not a plain (unframed) rectangle; retrograde inscription (indicated by an arrow). Indications in the upper right corners classify handle an/dor stamp, distinguishing 1) place of origin when known - T(hasos), R(hodes) K(nidos), etc.; 2) type of stamped vessel if not an amphora; 3) language if not Greek: 4) shape of stamp if not a plain (unframed) rectangle; retrograde inscription (indicated by an arrow). Inventory numbers and any other documentation go to the left, any descriptive comment to the right, dimensions unless otherwise specified being width by thickness of handle where stamped. Numbers in the middle are negative numbers.

N-E ? 16.V.75 [illegible] in this volume here

Indications in the upper right corners classify handle an/dor stamp, distinguishing 1) place of origin when known - T(hasos), R(hodes) K(nidos), etc.; 2) type of stamped vessel if not an amphora; 3) language if not Greek: 4) shape of stamp if not a plain (unframed) rectangle; retrograde inscription (indicated by an arrow). Inventory numbers and any other documentation go to the left, any descriptive comment to the right, dimensions unless otherwise specified being width by thickness of handle where stamped. Numbers in the middle are negative numbers.

([illegible] 14.XI.67)

Indications in the upper right corners classify handle an/dor stamp, distinguishing 1) place of origin when known - T(hasos), R(hodes) K(nidos), etc.; 2) type of stamped vessel if not an amphora; 3) language if not Greek: 4) shape of stamp if not a plain (unframed) rectangle; retrograde inscription (indicated by an arrow). Inventory numbers and any other documentation go to the left, any descriptive comment to the right, dimensions unless otherwise specified being width by thickness of handle where stamped. Numbers in the middle are negative numbers.

Indications in the upper right corners classify handle an/dor stamp, distinguishing 1) place of origin when known - T(hasos), R(hodes) K(nidos), etc.; 2) type of stamped vessel if not an amphora; 3) language if not Greek: 4) shape of stamp if not a plain (unframed) rectangle; retrograde inscription (indicated by an arrow). Inventory numbers and any other documentation go to the left, any descriptive comment to the right, dimensions unless otherwise specified being width by thickness of handle where stamped. Numbers in the middle are negative numbers.
