

Aischinas, ep.

After 180.

Hiller: 'Häufig. Einmal mit OIAKINΘIOY'.

(Not found in Pergamon or Carthage.)

Agora context: no good. (Not häufig with us.)

Internal evidence: nothing definite to me at present.

Nilsson does list quite a lot of examples which suggests that if in office before 180 this eponym's name ought to have occurred in the Pergamon deposit. He

N.33

indicates no bb alpha but a near cross-bar theta.
