

Index of Lantern Slides in the Homer A. Thompson Collection at the American School of Classical Studies at Athens

Created by Caitlin Verfenstein, April 2005

NOTE: Sub-section titles are listed here as they appeared in the slide boxes. Sometimes the titles do NOT accurately reflect the nature of the slides found within that section of the drawer (for example, a sub-section labeled "Agora 1948" may also contain slides taken from the Agora 1947 excavation season). Corrections, where possible, are made in brackets next to the sub-section title.

Slide captions are reproduced as written on the original slide. Any changes here have been made only for clarification. Explanatory notes and spelled-out abbreviations are added when necessary.
